UNIVERSITY OF THE INCARNATE WORD ®

INSTRUCTIONAL TECHNOLOGY

KALTURA OVERVIEW

Topics

- Define
- Applications
- Best practices

Kaltura Defined

➡ Kaltura is a media portal
  - ➡ Users can create and store video content
  - ➡ Edit their own content
  - ➡ Manage and share content

➡ Kaltura includes a Blackboard interface, allowing users to upload video content to their courses

Kaltura Defined

➡️ Content options include:

➡️ Uploaded media content

➡️ Recorded Zoom sessions

➡️ Short screen-capture videos

➡️ Voice-annotated PowerPoint slides

➡️ Webcam recordings

➡️ Integrated quizzes

➡️ Students can use Kaltura too

Applications

➡ Engage students with media-rich content and quizzes

➡ Resource for developing a flipped classroom environment

➡ Upload video content to Blackboard using the Kaltura interface

➡ Students can record and post responses to discussion boards, blogs, wikis and journals

Best Practices

➡ Storyboard

  ➡ Annotate mouse or cursor movements that coincide with the words

  ➡ Rehearse the script and screen interactions

  ➡ Edit the storyboard to reflect any changes made during rehearsal

Best Practices

➡ Open all applications that interact with the recording

➡ Clear your computer desktop

➡ Turn off phones, fans and email reminders

➡ When using the webcam, take note of the background

Best Practices

- Use the Firefox browser on both Mac and PC
- Keep the video length under five minutes
- Make a test recording
