

The Respondus LockDown Browser

The Respondus LockDown Browser increases the security of online testing for Blackboard administered tests and quizzes. When installed, the LockDown Browser prevents:

- Access the address bar on their browser or the start button on their desktop.
- Access to the function keys and right-click options using the mouse.
- Exiting the test until the test is complete.
- Assessment attempts without the LockDown browser installed.
- Access to other areas of Blackboard.
- Screen captures.

Post an exam to the LockDown Browser

 A screenshot of the 'Course Tools' menu in Blackboard, with a box around the text 'Course Tools'.	1. Open your course 2. In the Control Panel, locate Course Tools
 A screenshot of the 'Respondus LockDown Browser' link in the Course Tools menu, with a box around the text.	3. Scroll down through the Course Tools, and click the Respondus LockDown Browser Link
 A screenshot of the 'Chapters 1-9 Final Exam' settings page. A box highlights the 'Modify Settings' button. Other visible text includes 'Review Early Exits'.	4.
