# Windows access to the wireless network

The Guest network allows individuals that do not have UIW credentials to self-register for internet access for a limited period of time (24 hours). This network is not for UIW employees or students.

1. Locate and click the **Wi-Fi- icon** on your desktop
2. Select the **uiw-guests,** wireless network and you will be redirected.

3. In the cells provided, enter your **username** and **password**

4. Click **OK,** Once connected, your pc will say connected.
